bootDryer ecoDry the technology

- The shoe dryers in the ecoDry series are available in various sizes.
- We only work with flame-galvanised quality precision sheet metal. In conjunction with our in-house powder coating, we can assure optimum corrosion protection.
- The silent footwear drying process is gentle on materials and involves the aluminium drying arms fitted with steurer systems end caps.
- The new eControl control unit with an LCD display provides the operator with a simple and intuitive as well as multi-lingual user interfaces for time management.
- With the Bluetooth function, the appliance settings can also be adjusted conveniently using the free app running on a terminal device (mobile phone, tablet PC).
